## NORMS FOR ELECTIVE COURSES

(Senate in its 9<sup>th</sup> Meeting held on 17<sup>th</sup> November 2011 approved the following)

Elective courses for the undergraduate programmes at IITGN are de-compartmentalized permitting students to opt for courses based on their interest, prior preparation and options exercised earlier. In the context of electives, the origin of a course holds less importance compared to its ability to contribute to the students' overall progress in the programme of their undertaking.

In addition, it is possible that a course:

- Which is not generally offered by the same discipline but helps the students deepen their understanding in the core discipline, may also be considered for **Honours** with the approval of the DPC and the DOAA.
- Which is not generally offered by that particular discipline, but helps the students deepen their understanding in the core discipline, may also be considered for **Minor** with the approval of the DPC and the DOAA.

In effect, a course **X** offered by discipline **A** may be counted for Honors/Minor in discipline **B** if the faculty group related to discipline **B** feels that the objectives of course **X** give depth in any area of discipline **B**.

No registrations will be permitted if there are time table clashes.
